

203.00 STAFF DEVELOPMENT - INSERVICE TRAINING

Today's dynamic and rapidly changing society with its tremendous accumulation of new knowledge and the attending obsolescence in some areas of practice makes it imperative that all staff members, teachers, clerical, technical, operations, maintenance and administrative personnel be engaged in a continuous program of professional and technical growth in order that they may be qualified to provide a quality educational program for all students being served by the Mingo County School System.

It is the policy of the Mingo County Board Of Education that a program of inservice training be established to provide an opportunity for the continuous professional and technical growth of personnel in the Mingo County Schools.

As a result of the operation of this policy, staff members will become knowledgeable regarding new developments and changes in their specialized field, and will utilize new and improved methods in practice.

The administrative staff employing administrative and management techniques consistent with modern management development will provide leadership which will assist each staff member to make a maximum contribution to the school district's effort to provide a quality educational program for all students.
